Standardized Testing 2021-2022

The NWEA is an assessment given at Cyber Village Academy a minimum of two times per year to measure student growth and learning needs. We use reading, math and science sections of the NWEA.

The MCA tests are annual, summative measurements of student achievement that are used, along with many other school and classroom assessments, to evaluate student learning and skills. The Reading, Math and Science MCAs are given to students, starting in Grade 3.

The ACCESS for ELLs and Alternate ACCESS for ELLs are English language proficiency assessments used to meet federal and state legislative requirements. These assessments are used to monitor English learners' progress as they develop academic language skills in reading, writing, listening, and speaking.

Please note that due to COVID-19 restrictions, these dates may be fluid in order to provide every student an equitable chance to demonstrate their best effort on these assessments.

The MCAs and ACCESS tests are required by the state of Minnesota. More information about these assessments from the Minnesota Department of Education can be found at: <https://education.mn.gov/MDE/fam/tests/>
